FOREIGN POSTAL SERVICE. PROTEST OF LILIUOKALANI

Objects to the Cession of Hawaii to the United States.

Ex-Queen Liliuokalani has made formal protest against the annexation of Hawaii by the United States. Her protest was filed at the State Department late yesterday af-ternoon by Mr. Joseph Heleiuhe, her secretary, who claims to represent native Hawallans. He was accompanied by Mr. Ju-lius A. Palmer, the ex-queen's American

The protest was as follows: I, Liliuoka lant of Hawaii, by the will of God named heir apparent on the 10th day of April, A. D., 1877, and by the grace of God, queen of the Hawaiian Islands, on the 17th day of January, A. D., 1833, do hereby protest against the ratification of a certain treaty, which, so I am informed, has been signed at Washington by Messrs. Hatch, Thurston and Kinney, purporting to cede those islands to the territory and dominion of the United States. I declare such a treaty to be an act of wrong toward the native and parnstive people of Hawaii, an invasion of the rights of the ruling chiefs, in violation of international rights, both toward my people and toward friendly nations with whom they have made treaties, the perpetuation of the fraud whereby the constitutional government was overthrown and finally an act of gross injustice to me: against the ratification of a certain

Because the official protests made by me

Because the official protests made by me on the 17th day of January, 1893, to the so-called provisional government, was signed by me and received by said government with the assurance that the case was referred to the United States of America for arbitration.

Because that protest and my communications to the United States government immediately thereafter expressly declares that I yielded my authority to the forces of the United States, in order to avoid bloodshed and because I recognized the futility of a conflict with so formidable a power.

a power.

Because the President of the United States, the Secretary of State and an envoy commissioned by them reported in official documents that my government was unlawfully coerced by the forces, diplomatic and raval, of the United States that I was at the date of their investigations the constitutional ruler of my people.

Because such decision of the recognized magistrates of the United States was officially communicated to Sanford B Delections. magistrates of the United States was offi-cially communicated to Sanford B. Dole, and said Dole's resignation requested by Albert S. Willis, the recognized agent and minister of the government of the United States.

Because neither the above named con Because neither the above named com-mission nor the government which sends it has ever received any such authority from the registered voters of Hawaii, but derives its assumed powers from the so-called committee of public safety, organ-ized on or about said 17th day of Janu-ary, 1893, said committee being composed largely of persons claiming American citi-zenship, and not one single Hawaiian was a member thereof or in any way partici-rated in the demonstration leading to its existence.

rated in the demonstration leading to its existence.

Because my people, about forty thousand in number, have in no way been consulted by those, three thousand in number, who claim the right to destroy the independence of Hawaii. My people constitute four-fifths of the legally qualified voters of Hawaii, and excluding those imported for the demands of labor, about the same propertion of the inhabitants.

Because said treaty ignores not only the civic rights of my people, but, further, the hereditary property of their chiefs. Of the 4,000,000 acres composing the territory said treaty offers to annex, 1,000,000, or 915,000 acres has in no way been heretofore recognized as other than the private property of the constitutional monarch, subject to a control in no way differing from other items of a private estate.

Because it is proposed by said treaty to confiscate said property, technically called the crown lands, those legally entitled thereto either now or in possession receiving no consideration whatever for estates, their title to which has been always undisputed, and which is legitimately in my name at this deater.

Because said treaty ignores not only all professions of perpetual amity and good faith made by the United States in former

professions of perpetual amity and good faith made by the United States in former treaties with the sovereigns representing the Hawaiian pecple, but all treaties made by those sovereigns with other and friendly powers, and it is thereby in violation of international law.

Because by treating with the parties claiming at this time the right to cede said territory of Hawaii, the government of the United States receives such territory from the hands of those whom its own magistrates (legally elected by the people of the United States and in office in 1833) pronounced fraudulently in power and unconstitutionally rulling Hawaii:

Therefore, I, Liliuokalami of Hawaii, do hereby cali upon the president of that nation, to whom alone I yielded my property and my authority, to withdraw said treaty (ceding said islands) from further consideration. I ask the honorable Senate of the United States to decline to ratify said treaty, and I impiore the people of this great and good nation, from whom my ancestors, learned the Christian religion, to sustain their representatives in such acts of justice and equity as may be in accord with the principles of their fathers and to of justice and equity as may be in accord with the principles of their fathers, and to the Almighty Ruler of the universe, to Him who judgeth righteously, I commit

my cause.

REMARKABLE TELEGRAPHIC FEAT. Manager Marean Discusses the Recent Cable Chess Match.

"I think the public has not thoroughly appreciated the fact that the telegraphic work done in connection with the international chess contest two weeks ago between members of Congress and the British parliament was in a number of respects the most remarkable feat of skill ever accomplished in the history of telegraphing," said Mr. M. Marean, manager of the Western Union Telegraph Company, to a Star reperter today. "It took on an average only fifteen seconds to transmit the moves between Washington and London. During the two days of the game not a single telegraphic mistake was made, and the overland and cable service was without other than momentary interruption. The other than momentars interruption. The line ran from Washington to Heart's Content, Nova Scotia, over the Western Union system, thence by the Western Union and Angic-American Cable Company to Valen-cia, Ireland; thence to the house of parliament. Six operators were engaged in the work, one at each end of the three lines. When preparation was being made for the match it was questioned whether moves could be telegraphed as rapidly as fifteen per hour. The service given demonstrated that there might have been 100 moves an hour, so far as their transmission over the ocean was concerned. Of course, abbreviations were used, and no time was lost in sending either addresses or signatures." When preparation was being made for the

To Sleep Well Eat Before Retiring. From the Medical Record.

A light supper just before retiring is usually of advantage. Baby and brute animals are usually somnolent when their stomachs are well supplied with food, the activity of the stomach withdrawing the excess of blood from the brain, where it is not needed during sleep. On the other hand, people who are very hungry usually find it very difficult to sleep. And then a habit of sleep at a regulated time and

a habit of sleep at a regulated time and during proper hours should be cultivated in case this habit has been lost. In accomplishing this the attainment of a favorable state of mind is of great importance. Sleep cannot be enforced by a direct exercise of the will.

The very effort of the will to command sleep is enough to render its attainment nugatory. The mental state to be encouraged is one of quiescence, one of indifference, a feeling that the recumbent posture is a proper one for rest, and that if the thoughts are disposed to continue active they may be safely allowed to take their course without any effort toward control. This state of mind and thought is next akin to dreams, and heaming is next to sound sleep.
